“Ricardo took extraordinary care to make sure the content spoken not only to our business interests but - through personalising content - to the lives and interests of the attendees. This was an inspiring and motivating story-telling session with lessons interwoven in the stories to address the culture we are trying to build as a team. The remote delivery was compelling - Ricardo made it as warm and engaging as a face to face pre-dinner speech!”

“Ricardo Diniz has the ability to involve us and transport us to his world in a unique and absolutely genuine way. The simplicity and, at the same time, assertiveness of the message, can reach everyone, leading us to reflect on the way we face the different challenges in our activity, allowing us to measure each of the difficulties we encounter along the way, transforming them into opportunities for resilience. A truly inspiring message that helps to define behaviors and look to the future with greater confidence.”

“What inspired me the most in “Inspiring Talks” with Ricardo Diniz was his message. With a unique simplicity and humility, it boils down to: - Despite the difficult moments that we may live, the truth is that at that time, “life” also provides us with opportunities, with the certainty that it is within reach for all of us to have the optimism and hope to recognize them and, in that spirit, to know how to enjoy them.”

“Ricardo’s participation was one of the highlights of the RiSe4ever event organized by Servier. His life experience, full of simple and powerful messages, combined with his warm, humble yet proactive personality, positively energized all the participants. The constant parallels between his experience and the issues that companies face on a daily basis, such as resilience in the face of the unknown, investment in social responsibility and the environment, our ability to overcome and learn throughout life, or the promotion of an aggregating vision, especially relevant to us Portuguese, formed the successful ingredients of his intervention. Sensational!”
